What is 1inch Network?

There are two different kinds of crypto exchange – centralized exchange ([CEX](#)) and decentralized exchange ([DEX](#)). Firstly, centralized exchanges are the big players in the exchange world, with sites such as Binance and Coinbase leading the way.

The thing with CEX is that there is some concern about their centralized nature. Some decentralization evangelists believe that having trades subject to a centralized authority goes against the very ethos of cryptocurrency, while the fact remains that people can only trade cryptos that the CEX lists in the pairs that are available on the platforms.

Then a potential alternative to this comes in the form of the decentralized exchange. A DEX lets people list what they want and buy for the price they are will to pay in a peer-to-peer network.

These systems use smart contracts, computer programs that automatically execute when certain conditions are met, and liquidity pools to operate. While they can be rather complex, their supporters claim that their flexibility and lack of decentralization make them a useful solution.

There are many DEXs out there, and 1inch is just one of them. What makes it a bit different to the many other decentralized exchanges out there is that it is a bit more than one single DEX. Rather, it collates information from the various DEXs that clutter up the blockchain and condenses everything, in theory giving customers the opportunity to find out where the best prices are and how to get them.

The primary goal of 1inch network is to provide better price options to its customers while maintaining asset liquidity and security. The network has made trading much more convenient.

1inch is run by a decentralized autonomous organization (DAO). However, the system does have two named founders, Russian developers Sergej Kunz and Anton Bukov.

According to the system's website, there have been more than 4.4 million different wallets used on the platform and 29 million or more trades, with more than \$282bn worth of money going through the network.

Every blockchain-based platform needs its own cryptocurrency, and 1inch network has the conveniently-named 1INCH native token. It is worth pointing out at this stage that 1inch is based on the [Ethereum \(ETH\)](#) blockchain, meaning that it is, technically speaking, a token, rather than a coin. You might see references to such things as a 1inch coin price prediction but, if we are going to be precise and accurate about such things, they are wrong.

How Does 1inch Network Work?

The 1inch Network ecosystem is made up of three protocols that ensure its smooth operation and provide services to its participants.

- **1inch Aggregation Protocol**

This protocol's purpose is to determine the best path for its users. There are numerous liquidity exchanges in the digital market that support various cryptocurrencies on their platforms, each with its own set of prices; some offer a higher price for a coin, while others offer the same coin at a lower price.

This protocol analyzes the prices on all of these exchanges and recommends to its users the exchange with the lowest price in comparison to other platforms. Customers can trade at a low cost as a result of this.

- **1inch Liquidity Protocol**

The protocol handles all tasks related to protection and safety. This protocol protects participants from various threats that they may encounter while trading. It also serves to provide incentives to its users.

- **1inch Limit Order Protocol**

This protocol is the most recently updated of the three. Its services limit customers' order swap opportunities in decentralized finance. Other features of this protocol include dynamic pricing and conditional orders. This protocol also supports custom implementations such as stop-loss and trailing stop orders.

1inch Wallet

This wallet enables trading on a variety of exchange platforms. Users store their assets in the digital wallet and connect it to the 1inch Network to begin trading without handing over control of their assets to anyone. This 1inch wallet is a user-friendly mobile platform that protects the assets of the clients. It also improves the participants' transaction and staking skills.

1inch Price Analysis

First let's take a quick look at the 1INCH price history. While past performance should never be taken as an indicator of future results, knowing what the crypto has done in the past can give us some much-needed context when it comes to either making or interpreting a 1INCH token price prediction.

When 1inch first came onto the open market in late 2020, it was worth about \$1.60. The start of the following year saw the crypto market explode, and 1inch was able to cash in on the bull market, reaching an all-time high of \$7.87 on 8 May that year. Following that, though, it was all downhill and, despite a rally to highs over \$5.70 in late October, the price ultimately slumped to close the year at \$2.39.

As everyone knows, 2022 was a year which saw disaster strike the whole crypto sector. 1INCH had been on the downtrend since April and suffered throughout most of the year. The coin finally ended 2022 with \$0.384, down more than 80% over the course of the year.

At the time of writing, 1INCH is trading at \$0.3125 with a market capitalization of \$321,016,106, ranking #99 amongst all cryptocurrencies by that metric. In the past 24 hours, the price of 1INCH has decreased by 0.09% with a trading volume of \$29,893,818.

1inch Crypto Price Prediction 2023, 2025, 2030

We've covered most of the important things you need to know about 1inch before considering its price prediction. If you are really interested in investing in the coin, this is the time to be more attentive. Do note, however, that predictions are not a substitute for your own research and due diligence.

Below is a brief overview of our 1inch price prediction for 2023, 2025 and 2030, ensuring you have a rough idea of the coin's value potential:

YEAR	MINIMUM PRICE	MAXIMUM PRICE
2023	\$0.38	\$0.46
2025	\$0.45	\$0.70
2030	\$1.27	\$1.52

1inch Price Prediction 2023

According to our 1inch price prediction 2023, the minimum price of 1inch will be \$0.38 by the end of 2023. The maximum level that the 1inch price can reach is \$0.46. The average trading price is expected around \$0.40.

1inch Price Prediction 2025

If 1inch successfully boosts market sentiment among crypto enthusiasts, 1inch coin could experience a significant increase in value throughout 2025.

Our 1inch price prediction 2025 forecasts 1inch to trade between \$0.61 and \$0.70 in 2025. 1inch coin's average price is expected to be around \$0.63 by the end of 2025.

[Download App for Android](#)

[Download App for iOS](#)

1inch Price Prediction 2030

Certain that the long-term price prediction for 1INCH 's price will soar since there is still optimism that the cryptocurrency will attract much more attention.

In 2030, the 1INCH price is estimated to reach \$1.27, at minimum, and the maximum price could be \$1.35, according to our 1INCH price prediction 2030. The average price of 1INCH coin might go to \$1.29 by the end of 2030.

Can 1inch Hit \$100?

To reach a value of \$100, 1inch needs to rise 320 times. At \$100, 1Inch's market cap will be \$103 billion. If 1inch were to rise 25% every year, it would take about 30 years to reach \$100. Given that 1Inch is a moderate case for investment, here is the feasibility:

- Growth needed to rise to \$100: Not Feasible
- Market cap at \$100: Feasible

- Time required to reach \$100 at 25% growth per annum: Not Feasible

Therefore, we believe that \$100 dollars for 1inch is a theoretical possibility but the odds of it becoming real are extremely low if not impossible. In theory it is feasible, but in reality, there are practical challenges and there has to be significant progress in 1inch use cases to justify these levels.

1inch Price Prediction Conclusion

To summarize, 1INCH is a token with a promising future, and its value will skyrocket in the coming years. This currency also has a large market capitalization, which is one of the reasons it could be a profitable investment. Our forecast indicates that while this currency may not be a good short-term investment, its volatile nature provides many opportunities for long-term investors.

In closing, please know the figures are generated using our price prediction tool and in that matter, not a guarantee, that the actual price action will follow what we mentioned. Forecasts are not immune to changing circumstances and will be updated with new developments. Always do your own research and evaluate all necessary factors before making any investment.

FAQs

Is 1 inch coin a good investment?

1 inch is, just like all other cryptocurrencies, a risky investment. It does have higher probability of going up than down because of the good use case, well-designed tokenomics, active community and a solid team behind it.

What will 1 inch be worth in 2025?

Our 1 inch coin price prediction 2025 suggests that 1 inch will be trading between \$0.61 and \$0.70 in 2025.

What will 1 inch be worth in 2030?

Based on our 1 inch coin price prediction 2030, the projected maximum 1inch price at the end of 2030 is \$1.35.

Where can I buy 1INCH?

Notable options for purchasing 1INCH include Binance, BTCC and Coinbase. Among these, [BTCC](#) is one of the best exchanges as it witnesses a large trading volume of 1INCH. Compared to Binance, BTCC has no regulatory concerns and is available in U.S., Canada and many other countries in Europe. Furthermore, [BTCC exchange](#) is highly recommended due to its favourable attributes such as extremely low fees, user-friendly interface, excellent customer support, and robust security measures with no reported hacks or security breaches to date.

In order to trade [1INCH/USDT](#) on [BTCC](#), you need to first [register](#) an account. And you need to have some USDT in your crypto wallet, or you can directly [buy](#) it on BTCC. Once you have USDT, you can trade [1INCHUSDT Perpetual Contracts](#) on BTCC with a leverage up to 50x. The transaction is safe, cheap, and fast with VERY easy steps. You can also choose to deposit [1INCH](#) with a minimum single deposit of 700 1INCH.

[Buy 1INCH Now](#)
