## What is a Crypto Presale?

In advance of an ICO, investors can participate in something called a “presale” to purchase crypto assets (ICO). The main goal of a crypto presale for the development team is to get funding.

Additionally, it can be used as a trial run in the market before the ICO is launched. Pre-sale cryptocurrency tokens, however, offer substantial returns to investors. To elaborate, during a presale, the platform's website is typically used to sell crypto tokens at steep discounts.

Token value may increase after being traded. The investor can either cash out their tokens at the current market price or hold on to them in the hopes of further price appreciation.

The strategy will ultimately be determined by the nature of the project and the investor's comfort level with risk. Some projects even provide bonuses like premium memberships, extra tokens, and early access to all the cool stuff.

## 5 Best Crypto Presales To Buy In July 2024

Due to the fact that crypto ICOs represent token offerings from brand new businesses with no market history or established network of supporters, it is essential to do comprehensive research before investing in any crypto presale.

Every day, dozens of new companies are introduced to the market, and while many of them boast innovative concepts, solid teams, and sound tokenomics, the success of their investors cannot be assured.

Investors should know their own risk tolerance and ability to withstand losses before making a pre-sale investment, as this type of investment carries the biggest potential for both gain and loss. We think the following projects are going to have the most successful crypto presales in 2024.

## 1. Pepe Unchained (\$PEPU) - Best Crypto Presale to Invest In Overall

In the realm of presales, Pepe Unchained (\$PEPU) is now one of the most talked-about projects. Despite just being out for a little over two weeks, the presale has already raised over \$2 million, which is a huge plus. Rarely does a coin that is thought of as a fork of an existing coin receive this much attention.

### How To Buy \$PEPU?

- 1 Create Your MetaMask Wallet**  
If you already have a compatible wallet—go to step 2. If not, we suggest Metamask. On PC, it's a browser extension. On Mobile, it's an app. Simply go to Download MetaMask: The Premier Blockchain Wallet App and Browser Extension.
- 2 Load Wallet With Crypto**
- 3 Buy and Stake \$PEPU**

FIRST, HE BROKE HIS CHAINS...

The rationale behind this is that Pepe Unchained aims to enhance the original Pepe Coin (PEPE) rather than merely imitating it. The project's foundation on its own layer-2 network is essential to its plans for doing this. Pepe was confined to his antiquated and cumbersome Layer ONE server room, as they themselves put it.

The enormous advantages of having its own layer-2 space are now available to it. The advantages for investors include a better capacity for volume transactions, the lowest transaction fees, and instant and cheap charge bridging between Ethereum and Pepe Chain. Investors will have the opportunity to earn double staking rewards, which is even more appealing.

## **2.99Bitcoins - Learn2Earn Crypto Launched on Presale, Get Staking Yields and Trading Signals**

With over 700,000 users, 99Bitcoins (\$99BTC) is a well-established crypto-learning platform that has

finally released its own presale token. Tokenizing 99Bitcoins in 2024 made it possible for users to have access to trade signals, community advantages, and staking rewards on a learn-to-earn cryptocurrency platform.

Pre-sale for \$99BTC, 99Bitcoins' native token, began not long ago. There will be a total of 99 billion tokens in circulation, and the presale will distribute 14.85 billion of these. Currently, one \$99BTC token is worth \$0.001. Members of VIP groups can exchange tokens, meet other token holders, and learn more about cryptocurrencies.

Plus, you may stay one step ahead of the ever-changing markets with the help of expert trading signals. One major perk is having access to a crypto-learning program with both beginner and intermediate modules. Members of 99Bitcoins earn crypto tokens when they participate in quizzes, complete assignments, and move through the curriculum.

Those interested in a steady stream of income have the opportunity to bet \$99BTC on the safe smart contract. The current Annual Percentage Yields (APYs) offered by 99Bitcoins exceed 70,000. Because of all these factors, 99Bitcoins had a successful presale launch, bringing in over \$100,000 in less than 24 hours. 99Bitcoins has set a hard cap for the presale at \$11 million.

Join the 99Bitcoins Telegram channel and read the whitepaper to find out more about this cryptocurrency presale. Check out our buying 99Bitcoins tutorial for additional details.

<b>Presale Started</b>	April 2024
<b>Purchase Methods</b>	ETH, BNB, USDT, Card
<b>Chain</b>	Ethereum (to be bridged to Bitcoin)
<b>Starting Price</b>	\$0.001
<b>2024 Price Prediction</b>	\$0.004
<b>Raised So Far</b>	\$940,000+

## Pros

- Provides rewards while teaching community members.

## 3. WienerAI - A New Meme Coin With a Dog Theme and High Staking Reward

WienerAI aspires to join the ranks of Dogecoin, Bonk, Myro, and Shiba Inu, among other dog-themed meme coins.

Currently, WienerAI is available for purchase through a token presale that consists of numerous stages, with progressively greater token prices at each stage. To receive the best deal on tokens, it's recommended to join the presale as soon as feasible.

For the WAI Inu presale, you can buy \$WAI with ETH or USDT by connecting your wallet to the site.

To get in on the big staking benefits, stake your \$WAI tokens as soon as you buy them. Remember that the APY will decrease dramatically as the number of tokens purchased and staked increases. So, if you want to get in on this initiative early and stake, it might be a good idea.

Your tokens will be available for claim after the token presale concludes. The token presale will utilize half of the 6.9 billion tokens that will be available. As stated in the Wiener AI whitepaper, the remaining 30% go toward the staking incentives.

<b>Presale Started</b>	April 2024
<b>Purchase Methods</b>	ETH, USDT, BNB, MATIC, Card
<b>Chain</b>	Ethereum
<b>Starting Price</b>	\$0.0003045
<b>2024 Price Prediction</b>	\$0.006
<b>Raised So Far</b>	\$640,000+

## Pros

- Presale of new tokens
- Coin with a dog theme
- APY with high stakes

## Cons

- Not useful at this time

## 4. Sealana -Buy New SOL Seal-Themed Meme Coin Before Summer Altcoin Frenzy

A fat seal named Sealana has been lowered into the Solana Sea. Sealana has given up on his slim figure in favor of a trader's diet of canned tuna and chips, becoming more and more glued to his computer as he grows older. He is absolutely obsessed with finding the next big Solana meme coin, and his flippers are going crazy trying to find it.

A new SOL joke coin called Sealana is being presaled in a "Send to Wallet" format, taking influence from South Park's World of Warcraft character. The creators of the SLERF coin, which became viral in March 2024 and witnessed huge profits in a short period of time, are supposedly behind it. Users

have the option to send SOL straight to the presale wallet or obtain \$SEAL using the website widget. Participating users will be eligible to receive token airdrops once the presale ends.

It is recommended to participate early in the presale because the price will increase as the event progresses. Currently, 1 SOL will fetch 6,900 \$SEAL. Make sure you use a DEX wallet if you want to pay with tokens straight to Sealana's wallet. Tokens from CEXs won't be eligible for the airdrop.

<b>Presale Started</b>	May 2024
<b>Purchase Methods</b>	SOL
<b>Chain</b>	Solana
<b>Starting Price</b>	\$0.01932
<b>Listing Price</b>	N/D
<b>Raised So Far</b>	\$130,000+

#### Pros

- Presale of new tokens
- Meme coin with a seal theme
- Expected to soar ahead of this summer's cryptocurrency feeding frenzy

#### Cons

- Not useful at this time

## 5. Mega Dice Token - The Native Crypto of a Well-Known Online Casino

---

Using blockchain technology to provide greater transparency, earning potential, and frequent payouts, the Mega Dice Token is a leading platform in the cryptocurrency sector. The presale for the native token, \$DICE, has just begun.

# MEGA DICE?

ALREADY A RAPIDLY GROWING GLOBAL CRYPTO CASINO BRAND WITH OVER 50K PLAYERS

Mega Dice is not a new casino. As one of the top brands in the crypto casino space our focus is growth and adding value to our players, like with the introduction of \$DICE

 <p><b>4000 +</b> Games from top providers</p> <p><b>50 +</b> Sports and eSports</p>	 <p><b>50,000 +</b> Players</p>
 <p><b>10,000 +</b> Active monthly players</p>	 <p><b>\$50M+</b> Monthly wagering</p>

With a maximum supply of 420 million tokens, the presale is distributing 35%, or 147 million tokens. The current first-round price of \$DICE is \$0.069 as of this writing. The presale has already raised over \$320,000 in the short time it has been running.

You can utilize \$DICE to get special perks and promotions, as well as priority access to the casino games, on the sports betting and casino platform. For high yearly payouts, stake the token for ten days, three months, or six months. Use this new GameFi token to get your hands on Mega Dice's limited-edition NFTs.

In addition, presale participants in the Mega Dice Token can participate in an airdrop campaign that will deliver 2.25 million USDT. Also, there's a referral scheme that token holders can join to get a 25% cut of the profits from new referrals. All things considered, Mega Dice Token ranks high among 2024's finest new presales.

<b>Presale Started</b>	April 2024
<b>Purchase Methods</b>	SOL, ETH, BNB
<b>Chain</b>	Solana
<b>Starting Price</b>	\$0.069
<b>2024 Price Prediction</b>	\$0.172
<b>Raised So Far</b>	\$9.3 million

## Pros

- Gain first access to games and save money while playing.
- High profits on staking and daily bonuses
- Gain from the program for affiliates

## Cons

- Could initially cause volatility

# How to Identify the Best Crypto Presales in 2024

Solid study is required to locate the top crypto presales for 2024. Once a possible presale is identified, savvy investors conduct extensive research on the project's objective, legitimacy, team, token utility, tokenomics, social media, backing and support, and hazards.

## Cryptocurrency websites

Look for listings on cryptocurrency aggregator websites, news articles, and trusted sites such as CoinGape!

## Crypto presale websites

Check for dedicated presale listing websites, however keep in mind that some postings may be sponsored by the project.

## Social Media and Forums

The best cryptocurrency presales will have a strong following and generate genuine excitement on social media and forums.

## Crypto Launchpads

Popular exchanges offer crypto launchpads, or incubators, where they promote and support new coins and may commit to listing them when they launch.

# Is it a Good Investment to Buy Crypto Presales?

There are advantages and disadvantages to investing in cryptocurrencies during presales. We have detailed some of the main benefits of participating in the top crypto presales of the year below.

## Large Upside Potential in Value

- When tokens are offered during presales, they are sold at a discount before the ICO.
- Those that invest in the token early will have a distinct advantage since they will be able to buy coins at a discount and then resell them at a higher price after the token is listed on an exchange.
- There's also the possibility that the token's value will increase as the project develops. At the same time, the investor can buy more coins at the beginning of the sale because the price is so low.

## Make Money Doing Nothing

- It is also becoming normal practice for cryptocurrency projects to provide passive income to its early investors.
- It's possible to find this in a variety of shapes and sizes. For instance, it is now normal practice for crypto projects to disperse transaction taxes in the form of status incentives to investors.
- For instance, every time a user makes a purchase on the Avoteo platform, the token holders will receive a 3 percent bonus. Many digital currency projects also include a staking function, which rewards holders of tokens with a portion of the network's transaction fees in exchange for keeping them locked away.
- If you're looking for the best crypto presale to invest in, it could pay you to research the extra benefits and potential for passive income that the project provides.

## Conclusion

Investors can get in on the ground floor of a promising new crypto project by participating in the presale. Not only will they be able to purchase tokens at a discount, but they will also be eligible for staking prizes and other benefits from the community.

However, with dozens of new crypto projects launching every month, it can be difficult to determine which presale offers the highest return on investment. Having already received over \$4.3 million in a month's time during its presale, Meta Masters Guild is our top pick since it is developing the first ever Web3 mobile gaming platform.

Project M2E An additional excellent option is the M2E venture FightOut, which has already raised \$4 million to transform the exercise industry via its app and aims to construct physical gyms.
