## BTCC Fees

---

Fee structure is an important metric investors would focus on when selecting an exchange. Most crypto exchanges charge two different types of trading fees: taker fees and maker fees. Charging high fees means less return for investors. Thankfully, BTCC boasts competitive advantage with its competitive fee structure and discounts for VIP customers (although the first eight VIP ranks yield no fee discount).

According to the largest and most recent empirical study on crypto exchange trading fees, the average spot trading taker fee is 0.2294% and the maker fee is 0.1854%. While compared with other major exchanges, BTCC only charges 0.06% for both takers and makers, which are far below the industry average.

Additionally, if you are a VIP client at BTCC, the benefit you can get access to is generous. Users can enjoy VIP-exclusive perks, including discounts on trading fees, access to exclusive campaigns, BTCC merch, priority customer support, fast withdrawal, and many more. A complete VIP fee table can be

found in the picture below:
