What is Ethena (ENA)?

Ethena is a project that uses Ethereum (ETH) as its foundation and aims to create a synthetic dollar protocol and an internet native yield. An internationally recognized dollar-denominated instrument, USDe, is available to Ethena users.

Additionally, the project's goal is to make sure that its users may perform transactions without relying on traditional financial institutions. Its 117,530 active users would be able to stand in for these institutions thanks to its crypto-native approach.

Curiously, Ethena has the support of several powerful people. Arthur Hayes, who was a co-founder and former chief executive officer of BitMEX, is one of them. Bybit Mirana, Binance Labs, OKX Ventures, and Dragon Fly are among the firms who have shown their support for the initiative.

Ethena (ENA) Price Prediction 2024

Arthur Hayes and other investors anticipate a meteoric rise in ENA's price in 2024. For example, Hayes mentioned in an X (formerly Twitter) post that the price could be driven higher by the Asian market's influx. The BitMEX co-founder hinted in another post that \$10 might be the price.

The image shows a screenshot of a post by Arthur Hayes (@CryptoHayes) on X. The post congratulates @ethena_labs on a successful TGE and predicts a price of \$10 for ENA. Below the text is a screenshot of a price chart for ENA on a dark-themed interface. The chart shows a price of \$0.721169, up 21.3% from a previous price of 80.00001102 (up 23.5%). The chart also shows a volume of 1.00 ENA for 0.7305 USD. The price history shows a steady increase from around \$0.60 to \$0.72.

No matter how upbeat things seem, a technical analysis of ENA is required. Positive readings from

the Awesome Oscillator (AO) on the ENA/USD 1-Hour Chart point to growing upward momentum.

Coin Edition also considered the Fibonacci extension, which indicated that ENA has a short-term potential to reach \$1.57. If these signs continue, we may see a higher price for ENA in 2024. With a continuation of this year's positive trend, ENA might reach \$2.50.

Ethena (ENA) Price Prediction 2025

By 2025, the token might be in high demand due to the enticing income that Ethena offers. If this holds, we may see ENA's price reach \$5 before the end of the year.

Ethena (ENA) Price Prediction 2026

The rally in ENA is anticipated to continue until 2026. The price might not, however, quadruple by 2025 levels. However, \$8.75 is not out of the question.

Ethena (ENA) Price Prediction 2030

It is possible that ENA's value will rise in 2030. But it may not be five times as good as it may be in the year 2029. Therefore, \$37.45 is the projected price for 2030.

Conclusion

Lastly, it should be noted that Ethena provides a respectable yield, which customers may encounter difficulty obtaining elsewhere. But if the market conditions are bad, people wonder if the initiative can keep going and pay out the rewards.

Users should likewise exercise caution, even though the CEO has already taken care of such problems. It began well, considering ENA's price. The results of the token study imply that its value may rise further. There may be downsides, but ENA could be a bullish play in this cycle.
