Harmony (ONE) Price Prediction 2023,2025,2030 - Is ONE a Good Investment?

Original:

<https://www.btcc.com/en-US/academy/research-analysis/harmony-one-price-prediction-202320252030-is-one-a-good-investment>

This [price prediction](#) can be useful if you're interested in the Harmony One Coin Price Prediction or exploring the potential of One coin. The technical analysis and historical performance of the Harmony Coin are the basis of our Harmony One price prediction. Here, we take a look at Harmony One Coin's future prospects.

When it comes to alternative [cryptocurrencies](#), Harmony One Coin is among the most widely used. Harmony is a public and fast blockchain protocol, as evidenced on the project website. Ethereum applications with 2-second transaction finality and 100x cheaper fees are now available on the Harmony mainnet. The goal of the Harmony network is to revolutionize the way dApps are developed by putting an emphasis on random state sharding, which makes block generation a trivial matter of seconds. The goal behind the invention of the Harmony blockchain was to make it simple and quick to build and deploy decentralized apps (DApps).

When compared to other altcoins, Harmony's true worth stands out. As a key component of Digital Assets, dApps deserve special attention. The Harmony team has launched several initiatives to entice the crypto community to its platform, in addition to the network's popularity among the crypto community. CoinMarketCap informed us that HAL is available on reputable trading platforms like Binance. Harmony's price may rapidly increase in the future months if it gets added to other major cryptocurrency exchanges like Coinbase.

Harmony (ONE) Price History

The most up-to-date Harmony price information we have indicates that this cryptocurrency is presently trading at \$0.011 and ranking #163 among all cryptocurrencies. Harmony has a total supply of 13,446,927,744 and a current market cap of \$152,100,356.

Over the past day, the value of the cryptocurrency has dropped by -0.99%. The current market cap

of the ONE is lower than the market cap from yesterday.

The cryptocurrency Harmony is having trouble gaining widespread adoption. The ONE has lost around -6.25% of its value over the past week. Even if the currency has solid fundamentals, we do not believe that it will be a lucrative asset in the near future because of the risky framing that it has been displaying over the previous few days.

Over the past month, the price of ONE has dropped by -54.936%, or an average of \$0.014 per coin. This unexpected drop indicates that the coin is currently in a downturn, which might be a fantastic buying opportunity for anyone looking to make a quick investment.

Price ranged from an average of \$0.018 down to an average of \$0.021 during the course of the last 90 days, representing a -43.16% drop.

The past quarter has seen a rising pattern of harmony. We conclude that similar segments of the market enjoyed substantial popularity during that time. Harmony's trading volume has increased from the previous four months, according to the most recent available statistics. The trading volume is a major factor in determining the price.

Over the past four months, the coin's average price has ranged from about \$0.011 at its highest point to about \$0.011 at its lowest. This is an increase of 6.29 percent.

Harmony (ONE) Price Predictions

Harmony one Coin has experienced tremendous growth in the cryptocurrency market from its

introduction date. In October of 2021, the price of a single Harmony coin reached an all-time high (ATH) of \$0.3798, marking a historic year for the cryptocurrency. Harmony ONE coin's recent performance suggests it has considerable future potential. However, there are a lot of variables involved, just like with other cryptos.

Harmony One Coin has a promising future, as seen by its limited token supply and the backing of the community as a whole. In 2023, when the value of all cryptocurrencies had dropped by 80% or more, the value of the Harmony Coin dropped by 90%. Despite this, Harmony Coin's market valuation places it among the top 150 crypto projects. If investors prioritize Harmony, the market price could increase by a significant amount by 2023.

Harmony (ONE) Price Prediction 2023

Cryptocurrency value growth may decelerate in 2023. Our Harmony One Coin price analysis suggests that by 2023 it may be worth as much as \$0.061. Harmony One Coin is now trading at an average price of \$0.042. In a bear market, the price of a single Harmony One Coin might drop as low as \$0.0023. In the event of a massive bull run, Harmony One's price could increase even more than we expect.

[TRADE_PLUGIN]ONEUSDT,ONEUSDT[/TRADE_PLUGIN]

Harmony (ONE) Price Prediction 2024

Our Harmony One Coin price forecast for 2024 projects a maximum trading price of roughly \$0.13 per coin. If the market behaves as we expect it to, the Harmony One Coin price in 2024 might range from \$0.086 on average to \$0.065 at its lowest point. Our price analysis suggests that even if the market experiences a significant bull run in 2024, Harmony One Coin's price is unlikely to exceed its recent ATH.

[TRADE_PLUGIN]ONEUSDT,ONEUSDT[/TRADE_PLUGIN]

[Download App for Android](#)

[Download App for iOS](#)

Harmony (ONE) Price Prediction 2025

Long-term, Harmony ONE currency has great potential. The average cost is projected to be \$0.29 by the year 2025. We estimated that in 2025, Harmony's price may go as high as \$0.41 if everything goes according to plan. Our research shows that assuming development trends continue, the lowest possible pricing of Harmony One is around \$0.15. Our Harmony One price forecast does not account for a possible bull rally in 2025, which may drive Harmony prices significantly higher.

[TRADE_PLUGIN]ONEUSDT,ONEUSDT[/TRADE_PLUGIN]

Harmony (ONE) Price Prediction 2030

There are indications that a new era for the cryptocurrency market is upon us in 2030. We estimate that by the end of 2030, one Harmony coin will cost around \$5.35 on average. Harmony One has a minimum value of \$4.51 if the market experiences a bearish run. In 2030, the greatest price predicted by the formula is \$7.28. In the year 2030, an early investment in the Harmony project might expect a substantial return on their capital.

Is Harmony Coin (ONE) a Good Investment?

Harmony has consistently been a top performer over the past few years. The recent price increase in Harmony One demonstrates that this cryptocurrency can provide unexpectedly high rewards. If you're a Blockchain developer, you've probably heard about Harmony. The dApps label has raised the bar for Harmony One Coin in the eyes of the cryptocurrency world.

Our research shows that investing in Harmony Coin for the long run can be profitable. Harmony

Coin's price action, while seemingly optimistic, appears to be somewhat unstable. These days, cryptocurrencies are the most promising and the most precarious investments there are. Consequently, you should practice sound risk management prior to making any financial commitments.

[TRADE_PLUGIN]ONEUSDT,ONEUSDT[/TRADE_PLUGIN]

Will Harmony One Hit \$1?

Given its current market price of \$0.01, Harmony ONE would need to increase its value by 50 times to reach \$1.

Furthermore, the value of Harmony doubled from its December 2021 low to its January 2022 high, when it hit \$0.35, a 2.18-fold increase from its December 2021 low of \$0.16. Consequently, it will take ONE about 23 months (less than 5 years) to reach \$1.

However, the current economic climate does not bode well for a 2.18-fold expansion in a single month due to factors such as inflation and liquidity shortages. Therefore, Harmony will require considerably more time than the next five years to reach that value.

[TRADE_PLUGIN]ONEUSDT,ONEUSDT[/TRADE_PLUGIN]

[Download App for Android](#)

[Download App for iOS](#)

Will Harmony One Hit \$1000?

The price of one Harmony coin would need to increase by a factor of 10,000 before it could hit \$1,000. Harmony ONE will take about 382 years to complete at a growth rate of 2.18 times every month, which works out to 4,587 months.

To begin, waiting 382 years is not a realistic option. Second, it's still impossible because the crypto market isn't benefiting from favourable macroeconomic fundamentals and liquidity conditions.

As a result, unless a miracle occurs, Harmony's price won't be a thousand dollars.

[TRADE_PLUGIN]ONEUSDT,ONEUSDT[/TRADE_PLUGIN]

Conclusion

The ONE token of the Harmony protocol has lately gained traction among crypto traders as a result of its placement on many major cryptocurrency exchanges. In addition to its widespread acceptance in the cryptocurrency market, Harmony is actively building out its own decentralized applications

(dApps) ecosystem. Therefore, Harmony is one of the most cutting-edge altcoins that has caught the attention of crypto-currency investors.

We advise our readers to do as much independent research as they can before buying Harmony One coin or any other cryptocurrency. While Harmony is a widely-traded cryptocurrency, it's important to weigh the benefits against the risks before investing. Due to their speculative nature, the direction of cryptocurrency prices might shift suddenly. It is not guaranteed that prices will move in accordance with these forecasts, which are based on technical analysis.

How to Trade ONEUSDT Futures on BTCC ?

To trade ONEUSDT **Futures** on BTCC, follow these simple steps:

- **Create an account**

Go to the [BTCC website](#) and fill out the registration form with the necessary details. Finish the checks to make sure you're in line with the stock exchange's rules.

- **Deposit funds**

Fund your BTCC wallet once your account has been created and verified. You can fund your BTCC account with a number of different cryptocurrencies and fiat currencies.

- **Navigate to the crypto trading section**

You can begin trading on the BTCC platform as soon as your account has been funded. Find the crypto exchange rate, which is written as crypto/Bitcoin (BTC) or crypto/US Dollar (USDT) depending on the other pairs available.s.

- **Choose your trading type**

Both spot trading and futures trading are available through BTCC. If you want to purchase or sell crypto tokens at the current market price, you may want to investigate spot trading. If you'd rather trade crypto with leverage and speculate on its price movements, you can do so with crypto Futures.

- **Place your trade**

After deciding which type of deal you want to make, you can enter the amount of crypto you like to buy or sell, as well as your preferred price (if necessary). If everything checks out, go ahead and make the deal.

- **Monitor and manage your trades**

Be sure to monitor your crypto holdings on the BTCC exchange. To limit losses and protect gains, you can use stop-loss and take-profit orders. It is also important to keep up with the latest crypto market trends and news if you want to successfully trade this cryptocurrency.

Before becoming involved in any kind of trading, make sure you've done your homework. Due to the extreme volatility of the cryptocurrency markets, it is crucial to have a well-defined trading strategy and risk management framework in place. To successfully trade crypto on the BTCC market and take advantage of the chances it provides, follow these procedures and keep yourself updated.
