The Meme Games (\$MGMES): Definition & Overview

The Meme Games is a novel crypto endeavor that seamlessly blends the world of memes with gamification. This groundbreaking project aims to introduce the multi-billion dollar meme coin sector to the global stage at the 2024 Paris Olympics, albeit not as an official partner. However, enthusiasts within the crypto community speculate that The Meme Games could potentially emerge as the event's de facto digital asset, harnessing the immense audience reach of the Olympics, which captivates billions worldwide.

With such a colossal audience base, The Meme Games stands poised to become the next [cryptocurrency](#) with a potential for exponential growth, surpassing even 1000-fold returns. Moreover, the project injects a playful gaming dimension into its ecosystem, allowing investors participating in the \$MGMES presale to choose their favorite meme athlete from an entertaining lineup including Pepe, Doge, WIF, Brett, and Turbo, adding a layer of engagement and personalization to the experience.

Currently, Meme Games (\$MGMES) is not available on BTCC platform as it is under its presale stage. BTCC supports trading for large variety of popular meme coins, such as PEPE, DOGE, SHIB, BONK, etc. If you are interested in these popular meme coins, you can make a purchase on BTCC exchange with highest security level and a most competitive fee.

How to Buy The Meme Games (\$MGMES) - A Simple Guide for Beginners

\$MGMES tokens are being under a presale stage. Read on for a detailed step-by-step guide on how to buy The Meme Games.

Step 1: Set Up a Crypto Wallet

Go to the Best Wallet website, click “Download,” and choose your preferred device type; you can download the app for iOS or Android. Once installed, open Best Wallet and choose a password. Write down the 12-word secret passphrase, which is needed if you lose the device or forget the password.

Step 2: Buy Crypto

Now that you have a suitable wallet, the next step is adding some crypto coins. This is required to invest in The Meme Games presale.

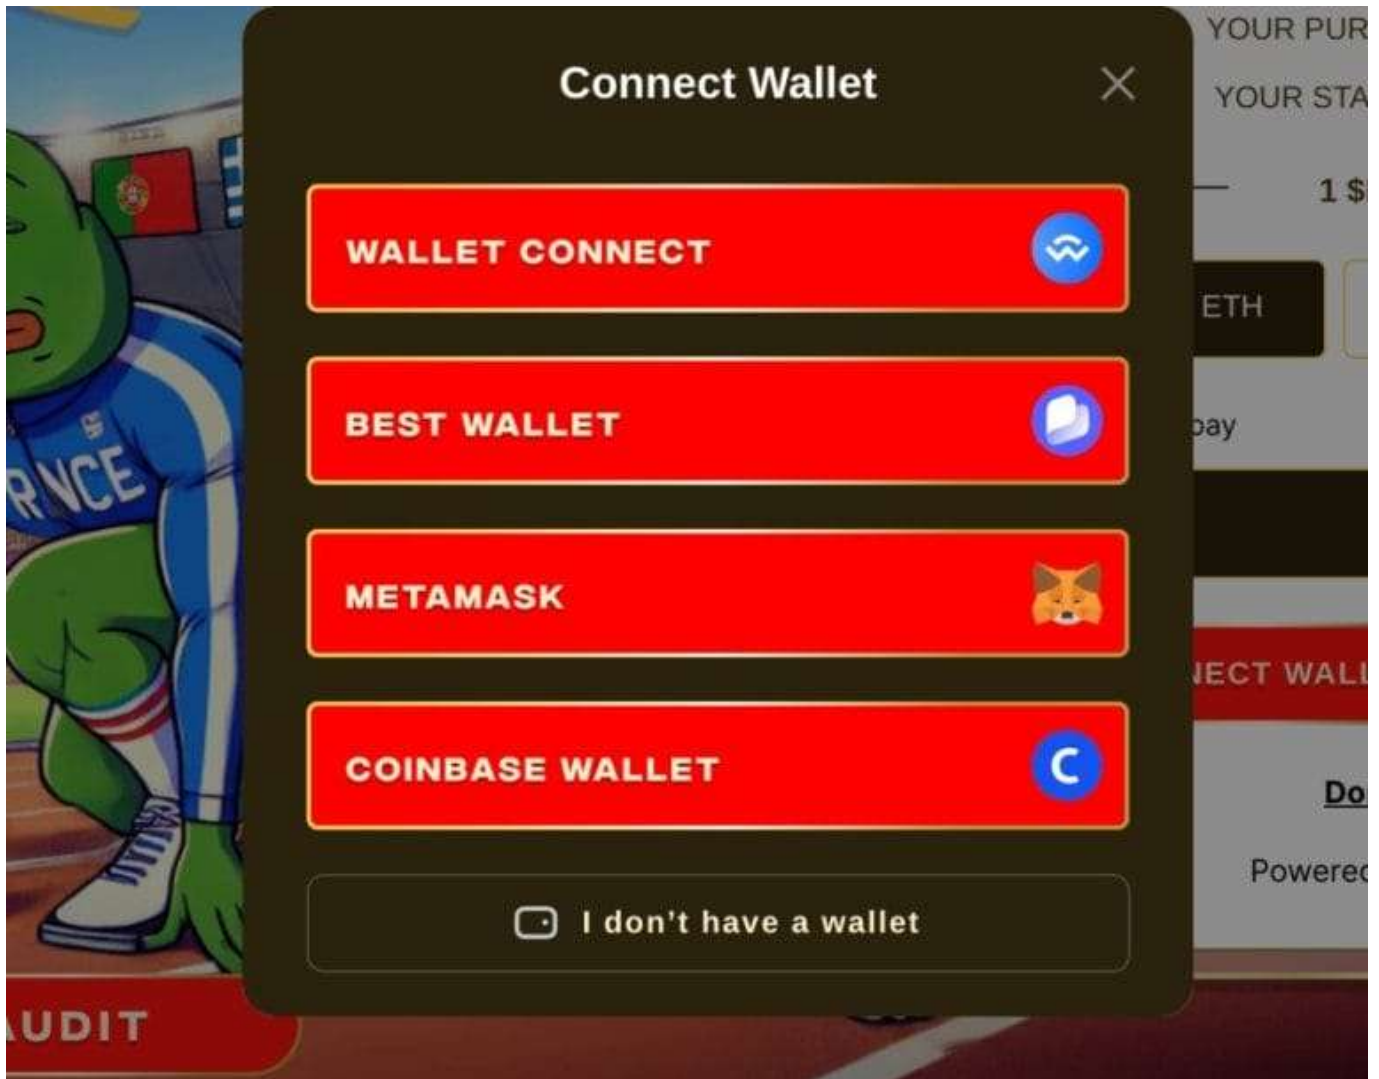

Accepted cryptocurrencies and network standards include:

- ETH (Ethereum)
- USDT (Ethereum)
- BNB (BNB Chain)
- USDT (BNB Chain)

These coins are listed by the best crypto exchanges, including MEXC, Binance, and Coinbase. Complete your purchase and request a withdrawal from the exchange. Provide your wallet address and wait a few minutes for the coins to arrive.

Step 3: Connect Your Wallet to The Meme Games Presale

You can now visit The Meme Games website. Click the “Connect Wallet” button and choose your wallet provider (e.g., Best Wallet).

Step 4: Choose Meme Athlete and Complete the Presale Form

Your wallet should now be connected to The Meme Games presale website. Next, select your preferred meme athlete.

There are five options, which are listed below:

- Pepe (France)
- Doge (USA)
- Brett (Germany)
- Turbo (Italy)
- WIF (Great Britain)

The next step is to complete the presale form.

Choose your investment currency (e.g. ETH) and type in the number of coins to invest. Our example shows that a 2 ETH investment gets 764,650 \$MGMES tokens. This is based on the current presale price of \$0.009.

Step 5: Buy \$MGMES Tokens

You'll need to confirm the presale investment from within your connected wallet. A notification will appear asking for authorization.

The investment coins (e.g., ETH) will then be transferred to The Meme Games presale wallet, which confirms the presale investment.

Staking and Claiming \$MGMES Tokens

- \$MGMES tokens can be staked as soon as you've completed the presale investment. This is the route most presale investors take.
- Currently, APYs are 4,287%, but this will decline as more tokens are staked. To stake a token, click the "Staking" button and follow the on-screen instructions.
- Note that it takes 7 days to unstake tokens.
- You can claim your \$MGMES tokens when the presale finishes if you'd prefer not to stake. This will happen on September 8th, 2024.

The Meme Games Price Prediction: Future Outlook for \$MGMES

Predicting price movements for newly launched tokens \$MGMES poses significant challenges due to their lack of trading history. Currently, \$MGMES is still in its presale phase, making it difficult to establish a definitive valuation.

Nonetheless, a conservative target for \$MGMES will be \$100 million. Should the hard cap target be reached, this would secure a 5x upside from presale prices.

While some analysts harbor even more ambitious growth aspirations, these projections hinge heavily on the overall market sentiment. If Bitcoin manages to scale new heights, it could serve as a catalyst, igniting interest in meme coins like \$MGMES. This scenario would likely appeal to risk-tolerant investors who envision a billion-dollar valuation for the token, translating into a potential 50-fold appreciation from presale levels.

Furthermore, the question of whether \$MGMES could reach 1 has also piqued the curiosity of investors. With a current presale price of \$0.009, such a milestone would imply a staggering approximately 111-fold increase. However, the feasibility of this target hinges on various factors, including the effectiveness of The Meme Games' marketing efforts and its capacity to distinguish itself amidst fierce competition in a crowded market.
