Each NFT luxury car Dreamcars mints is backed by a real physical luxury car. This is authenticated, insured, and stored in one of our secure depository vaults worldwide. Users can trade their fractions 24/7 on Dreamcars' secondary market or an Ethereum blockchain-based third-party NFT marketplace such as Opensea.

The Dreamcars luxury car-backed NFTs can be used as proof of authenticity and ownership, collateral for lending, trading in secondary markets, or as digital collectibles within the Dreamcars ecosystem or Metaverse.
