### **Is Rivian stock a good investment?**

Rivian stock has already plunged 90% from its November 2021 peak of \$179.47. It is highly unlikely that the price can have a similar downward rally in the near future. Therefore, I consider Rivian a good investment for at least a short term in anticipation of a relief rally.

### **Will Rivian stock go up or down?**

Based on the predictions provided by CNN, Rivian stock may show an upward movement. However, you should conduct in-depth research before making any decision.

### **What will Rivian stock be worth in 5 years?**

Our Rivian stock price prediction 2025 forecasts that Rivian stock price may be \$111.07(low) and \$120.79(high) by 2025. Also, the average price may be around \$115.93.

### **Should I buy Rivian stock?**

Rivian is a high-risk stock with a speculative outlook. Competition in the EV market will continue to increase, and Rivian needs to prove it can outrun its rivals and manage the growth of its business cost-effectively.

If you believe in Rivian's vision and consider its technology better than Tesla, then Rivian stock at its current price could be a nice buy. However, the stop loss must be kept under January 2023 low of \$15.28. The company will announce its Q4 2022 earnings on 28th Feb. A positive earnings report can send the stock price above \$25, however, a significant drop in revenue could make things really ugly.

### **When can I buy Rivian stock?**

You can buy Rivian stock at the current price as it has very little downside but massive upside potential. This provides a great risk-reward ratio, which investors often consider before investing in any stock. Tesla's current market cap is \$597 billion, so Rivian, at \$18 billion, seems to be a good buy.

### **How much is Rivian stock worth?**

Rivian stock is worth \$19.24 right now. Due to the recent correction in US equities and higher

interest rates, Rivian stock has lost 90% of its value in price since its all-time high of \$179.47. The current market cap of Rivian Automotive, Inc. is 18 billion. At its peak, the company was valued more than \$100 billion. The 2022 Rivian R1S adventure model price starts from \$78,000 and the base Explore model costs \$72,000.

### **What is the trading time for Rivian stock?**

As mentioned earlier, Rivian stock trades on the NASDAQ stock exchange, which is the second largest exchange in the world. NASDAQ trading hours are 9:30 am to 4:00 pm Eastern Standard Time and no trades on weekends. Rivian is listed on the exchange under the ticker symbol RIVN.

### **What factors may impact Rivian stock price?**

Factors that could impact Rivian stock price include overall economic conditions, changes in consumer preferences and demand for vehicles, competition within the automotive industry, and government regulations related to emissions and safety standards.
