Where to Buy Dogelon Mars (ELON)-Guide For Dummies

Original:

<https://www.btcc.com/en-US/academy/research-analysis/where-to-buy-dogelon-mars-elon-guide-for-dummies>

[Dogelon Mars](#) is one coin that caused a stir in the [cryptocurrency](#) industry. Since Dogelon Mars is a relatively new cryptocurrency, many people wonder where and how they can buy.

Dogelon Mars Coin, Explained

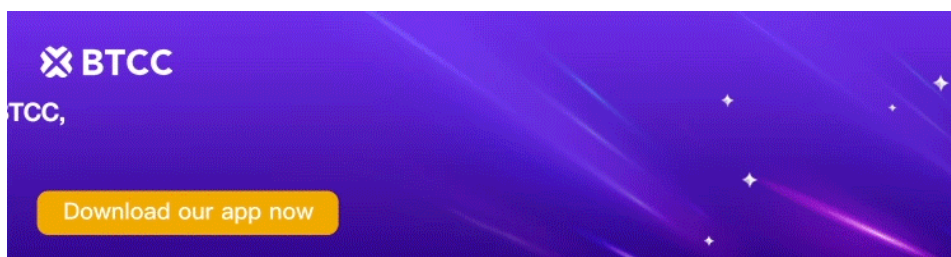

The [meme coin](#) Dogelon Mars debuted on [Ethereum](#) (ETH) in April 2021 before making the switch to Polygon. Similar to previous meme coins, this one is driven largely by its user base. The coin has gained notoriety for the token's holders' willingness to airdrop tokens to those who have fallen victim to crypto scams like rug pulls. This has given Dogelon Mars widespread acclaim in the cryptocurrency community, despite its detractors' labeling it "simply another meme coin."

Dogelon Mars, whether seriously or satirically (who can tell with meme coins?), seems to have associated itself with its famous namesake's mission to colonize Mars, and has revealed ambitions to become an interplanetary money to be utilized in completing intergalactic transactions.

Indeed, this is how its mascot is portrayed on its website: "Follow the journey of Dogelon Mars as he explores the greatest wonders of the galaxy and attempts to recolonize the planet he once called home with the support of the friends he's made during his travels across the stars."

Is Dogelon Mars Belonged to Meme Coin?

To the extent that the term “meme coin” is used to describe to a cryptocurrency that exists solely to ridicule, pay tribute to, or make a joke out of an idea (similar to how Dogecoin was designed to mock payment systems like Bitcoin), then Dogelon Mars may very well be a meme coin many times over.

Its moniker, Dogecoin, suggests that Dogecoin and its prominent backer, Elon Musk, were major influences. If you're familiar with meme coins at all, you know that their level of popularity is a major element in how they perform in the market.

Where to Buy Dogelon Mars on Decentralized Markets

Though it may be more difficult, many people would rather purchase their Dogelon Mars via a decentralized cryptocurrency market than a centralized one. The following are the procedures that must be followed in order to get a Dogelon Mars token.

1. Set up MetaMask

You must have MetaMask installed before you can buy [Ethereum](#) tokens on a decentralized exchange. After adding the MetaMask wallet extension to your browser, you'll be prompted to either create a wallet or import an existing one with a recovery phrase.

2. Put money into your MetaMask

When you're ready to use MetaMask, you'll need to load it up with Ethereum tokens. You'll need to

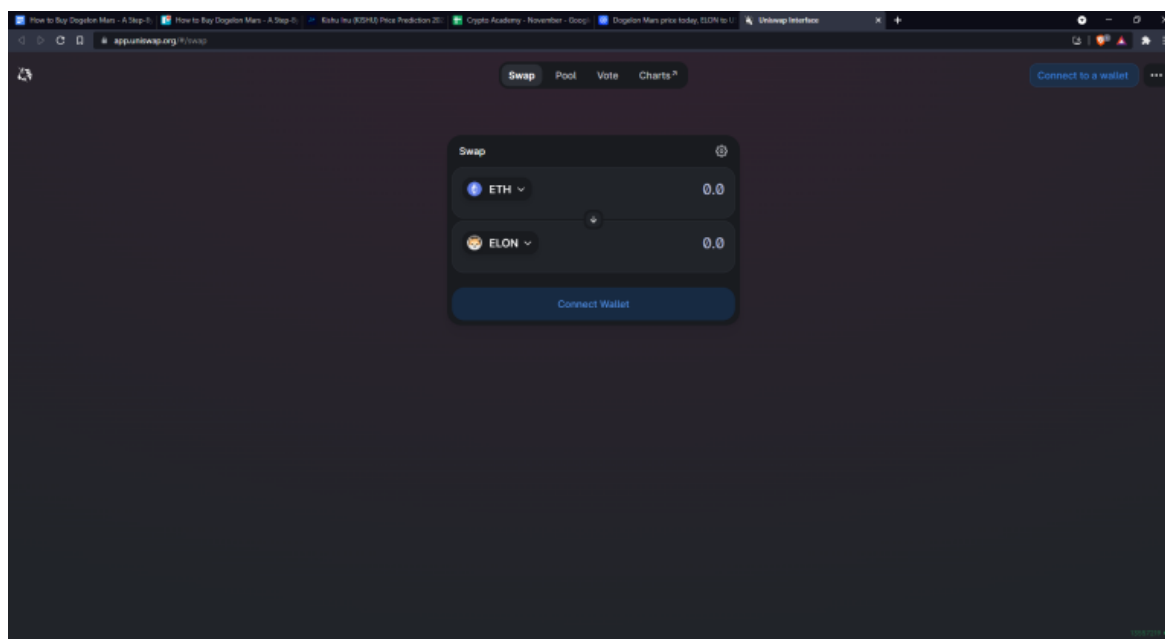

have some Ethereum on hand for this. Ethereum can be acquired on practically any exchange, but the easiest way to do so is through a centralized exchange like Binance, which we will utilize in this guide.

A Binance account, once created and verified, is a prerequisite for doing anything else. Once that's done, you may fund it with USD or EUR and then buy the required quantity of Ethereum. Withdraw your Ether to the Ethereum address displayed in the "Withdraw" tab of your MetaMask wallet.

Always retain some spare Ether in your wallet so you can cover the transaction fees incurred when sending or receiving Ether.

3. Link MetaMask to Uniswap

Once you have acquired some Ethereum tokens, you may begin exchanging them at Uniswap by linking your Metamask wallet there. In this tutorial, Uniswap will be used. Just visit Uniswap and link your Metamask wallet to get started exchanging.

4. Trade ETH for ELON

Your Metamask wallet is now ready to receive Ethereum in exchange for Dogelon Mars tokens. Both Uniswap V3 and V2 can be used for this exchange. That is, if the traffic permits. One of them, though, will offer a cheaper swap rate than the other, so compare the two.

Additionally, input the quantity of Ethereum you wish to trade in exchange for Dogelon Mars, and then press the "Swap" button.

Where to Buy Dogelon Mars on Centralized Exchanges?

Centralized exchanges have been more successful than decentralized ones because they are governed by regulations and enjoy widespread public confidence. Consequently, a centralized exchange is a safe place to acquire Dogelon Mars. Poloniex is just one example of numerous centralized exchanges, but it serves our purposes here.

1. Making a trading account

To begin, you must register for a Poloniex account. Poloniex's lack of stringent verification requirements makes opening an account relatively simple in comparison to other centralized exchanges.

2. Put money into your account

A Poloniex account can only be funded with fiat cash. The accepted means of payment may vary between markets. Credit or debit cards issued by Visa or Mastercard are the primary means of funding a Poloniex account. Poloniex accepts Apple Pay as a payment option also. Since USDT Tether (USDT) is the only cryptocurrency that pairs with ELON, you may simply enter the amount you wish to spend and then pick USDT Tether (USDT) as the cryptocurrency you wish to buy before clicking "Buy Now."

3. Invest in ELON

Your next move should be to buy some Dogelon Mars tokens. The ELON/USDT pair is the one you need to focus on. In addition, enter the number of ELON tokens you like to purchase, and then click "BUY."

Conclusion

There have been a lot of scams, hacks, and wild guesses in the cryptocurrency market. Dogelon Mars stands out from other meme currencies by having actual use cases. Dogelon Mars can be purchased on both regulated and unregulated markets nowadays. We recommend Poloniex, HotBit,

or Gate.io as safe and reliable places to purchase Dogelon Mars. Uniswap is a great option for those who want decentralized trading platforms. Never put your money into something you haven't thoroughly investigated first.

Why trade crypto futures on [BTCC](#)?

- Largest variety of futures: Daily, weekly, quarterly&perpetual
- Flexible leverage from 10x to 150x
- Lowest trading fees 0.03%
- Industry-leading market liquidity
- Plenty of campaigns to win exciting rewards
