WienerAI (WAI) Price Prediction 2024,2025,2030

Original:

<https://www.btcc.com/en-US/academy/research-analysis/wienerai-wai-price-prediction-202420252030>

Wiener AI is a Meme Coin that has gained a lot of interest since its April 11, 2024, presale started. Our goal is to inform the community about the potential price increase of the \$WAI token between 2024 and 2040. In this post, the team shares its Wiener AI forecast following a thorough investigation.

[Open a free BTCC account and receive 10 USDT welcome bonus](#)

WienerAI (WAI) Price Prediction Summary

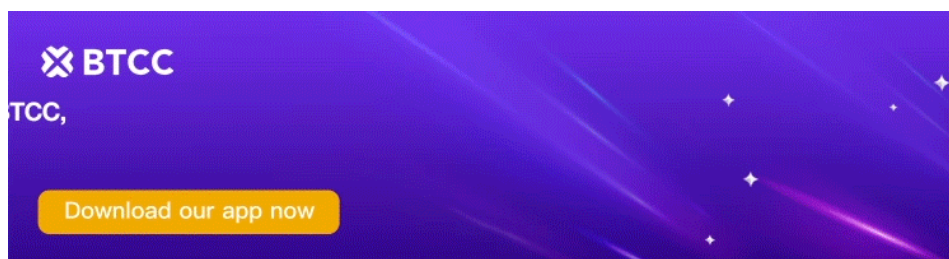

We thoroughly reviewed all of the official Wiener AI documentation, including the Tokenomic, Roadmap, and Whitepaper, in order to make our forecast. With an initial coin offering (ICO) of \$0.000702 in April 2024, this is the big picture for \$WAI's future.

Wiener AI (WAI) Prediction 2024: It didn't take long for us to realise that Wiener AI and Scotty the AI are very similar projects. In an effort to grow its 'Sausage Army', \$WAI has already drawn over \$600,000 in investment and looks to be stepping up its marketing efforts. The coin can essentially reach \$100 million in capitalization in 2024 if it soon enters DEXs. It would cost \$0.001449. (A pessimistic scenario)

Wiener AI (WAI) Prediction 2025: By 2025, several tokens should be at all-time highs due to a full bullrun. In order to be listed on the first CEXs (centralised exchanges like Binance), Wiener AI must demonstrate to the community the value of its initial AI applications. A \$1 billion capitalization is feasible if this is the case. It would cost \$0.01449. (A pessimistic scenario)

Wiener AI (WAI) Prediction 2030: By 2030, investors shouldn't have to worry about inflation thanks to a total amount of 69 billion tokens that will be released. However, Wiener AI will need to rely on its community and the creation of ground-breaking AI tools if it is to endure until 2030. This will allow \$WAI to fully capitalise at \$1.5 billion during a bullrun. It would cost \$0.02173. (A pessimistic scenario)

What is Wiener AI?

“Wiener” is a tribute to the renowned scientist Norbert Wiener, who was an AI trailblazer in the early 1950s and a pioneer in cybernetics.

Part Dog, Part AI, Part Sausage’ describes Wiener AI, a collaborative effort. The \$WAI incorporates multiple stories, including one using a \$SCOTTY, in a concrete sense:

- In the same corner: an insignia depicting a sausage dog, or more specifically, a Dachshund;
- The team has pledged to introduce state-of-the-art AI resources to its community.
- With a lot of marketing effort, we are creating a community called the “Sausage Army” with sausage.

After launching on the Ethereum network, 69,000,000,000 \$WAI were distributed across the community. The following allocations were made: 30% for the presale, 20% for staking, 20% for

community awards, 10% for DEX/CEX liquidity, and 20% for marketing.

You are aware that the initial investors in Wiener Dog AI can participate in a staking pool and earn passive benefits (up to over 1,000% depending on the amount of tokens blocked) through the ERC-20 network.

Thus, Wiener AI aspires to join the ranks of the first Meme currencies to enter the AI space, bolstered by its "Sausage Army" assembled through marketing campaigns using well-known YouTube personalities and existing channels. Until you become listed on the top exchanges.

WienerAI (WAI) Price History

You are correct in assuming that there is no price history for Wiener AI on DEXs or CEXs since the project is still in the pre-sale phase. On April 11, 2024, the project was launched with a price of \$0.000702. The fundraising will occur in 15 stages, with a hard cap of around \$15 million (\$20.7 billion WAI) reaching the end.

7	\$0.000714	\$6,683,523	1.35 billion
8	\$0.000716	\$7,649,101	1.35 billion
9	\$0.000718	\$8,617,376	1.35 billion
10	\$0.00072	\$9,588,348	1.35 billion
11	\$0.00074	\$10,586,291	1.35 billion
12	\$0.00076	\$11,611,206	1.35 billion
13	\$0.00078	\$12,663,092	1.35 billion
13	\$0.0008	\$13,741,950	1.35 billion
14	\$0.00082	\$14,847,779	1.35 billion
15	\$0.00084	\$15,980,580	1.35 billion

WienerAI (WAI) Price Prediction 2024,2025,2030

Investing in Wiener AI's prediction is not a good idea. Everyone thinking about buying this token should DYOR (do their own research). But if you want to know how to generate a Wiener AI prediction, our detailed study is down below.

WienerAI (WAI) Price Prediction 2024

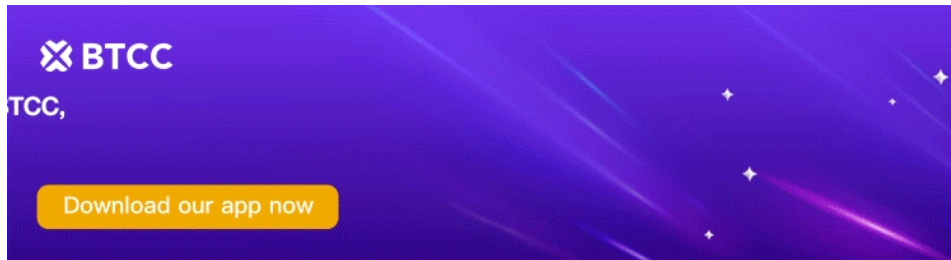

Upon seeing the whitepaper and the official announcement of the presale launch on April 11, 2024, we couldn't help but notice the striking similarities with \$SCOTTY. \$SCOTTY has already achieved a capitalization of over \$40 million since its launch on DEXs.

With approximately \$600,000 raised in a matter of days, it appears that the entire community of degens (investors in risky cryptos) has fully endorsed the idea of establishing a token that combines Meme currency with artificial intelligence. At the moment, investments are approaching \$100,000 every day, and everything appears to be moving at a rapid pace due to the teams' marketing efforts.

Launching on DEXs and the first CEXs could be perfectly timed if the hard cap of \$14.5 million is met by June or July 2024. By capitalising on its new community, the "Sausage Army," \$WAI may aspire to accomplish results comparable to Scotty the AI.

Wiener AI can acquire a \$100,000,000 valuation and attract the attention of larger exchanges by the end of 2024. Consequently, \$WAI would be worth \$0.001449 in the year 2024.

[Download App for Android](#)

[Download App for iOS](#)

WienerAI (WAI) Price Prediction 2025

The goal of Wiener AI's tokenomics is to establish a robust community for its token. There is no longer any possibility of the team absconding with the funds in 2025 because 70% of the supply will be given to degens through pre-sale, staking, and community awards.

Bitcoin, Ethereum, and the other major cryptocurrencies are currently experiencing a bullrun, a period of strong market activity, and many investors stand to gain a lot from investing in them. This sudden increase in DeFi (Decentralised Finance) liquidity might be very useful for new initiatives like Wiener Dog AI.

By launching its initial AI tools to appease and reassure its 'Sausage Army', \$WAI can aim to become one of the top five Meme currencies by 2025.

If \$WAI can finish in the top five among Dogecoin, Shiba Inu, Pepe, Dogwifhat, and Bonk by 2025, it will have a market cap of \$1 billion. At that point, the token's price would be \$0.01449.

[TRADE_PLUGIN]XAIUSDT,ETHUSDT[/TRADE_PLUGIN]

WienerAI (WAI) Price Prediction 2030

Everyone can expect all 69,000,000,000 WAI to be in circulation and available on major exchanges by 2030. Wiener AI might possibly be included in an upcoming Binance IPO and gain further exposure if the project is successful in attracting significant transaction volumes.

If the \$WAI wants to survive the bearish phase that is expected to occur between 2026 and 2028, it will need to demonstrate that it is more than just a dachshund currency. In order for the teams' announced AI tools to be truly useful to the community, they must be of high quality.

We are certain that "secondary" tokens like \$WAI will be greatly affected in 2030 by the halving of 2028, which occurs every four years on Bitcoin and usually results in a substantial increase. If the advertising keeps up and the "Sausage Army" is happy with Wiener AI's newest invention, the price might hit new heights in 2030.

Taking a sizable chunk of your \$WAI earnings at the end of the 2025 bullrun is highly suggested. However, if one holds onto a moonbag (a tiny amount of tokens retained after profiting) until 2030, they can achieve new heights with a capitalization of above 1.5 billion. That means \$0.02173 is the value of \$WAI.

What Affects the Wiener AI Price?

When trying to foretell the future of a cryptocurrency like Wiener AI, it is essential to consider both the internal and external factors that have the potential to impact its price.

1. Applications of AI with high quality

The Wiener Dog AI community token is planning to be an early leader in the AI industry. Knowing that Bittensor, Fetch, and Render are specialised projects gives us no doubt that the competition is tough. In order to achieve their goals, the \$WAI teams must release the first community-useful AI apps.

We believe that Wiener AI may yet reap the benefits of the “AI Bubble” that may materialise in the near future. This industry, which is worth over \$20 billion in the DeFi space right now, is tipped to soar during the next bullrun and take centre stage. So, the \$WAI’s ability to integrate this sector is directly tied to the quality of the applications it reveals, which in turn affects the price of the token.

2. The Sausage Army was established

Being a Meme coin, the value of \$WAI will primarily depend on the teams’ capacity to unite the community, as it is currently hypothetical.

Spending from this fund will be inevitable once the project launches and \$WAI is listed on DEXs. In order to build Wiener AI’s community, the founding teams spent their own money to pay for ads, work with influencers, and raise the platform’s profile during the pre-sale.

Speculation and investor sentiment on social media platforms will undoubtedly have a significant impact on the direction of the WAI price in the future. Everything will be green by June or July of 2024 if the Wiener AI presale finishes on schedule!

3. \$WAI Listing

Buying cryptocurrencies like WAI at a time when their visibility is limited is, of course, the goal. After the pre-sale concludes, however, new liquidity provided by the listing will be crucial for Wiener Dog's long-term performance and price appreciation.

As part of its plans, Wiener AI states that DEX/CEX liquidity will account for 10% of the supply. Great news! Teams may now easily distribute tokens to exchanges like MEXC, Kucoin, or Binance to promote quick listing.

Where To Trade Crypto?

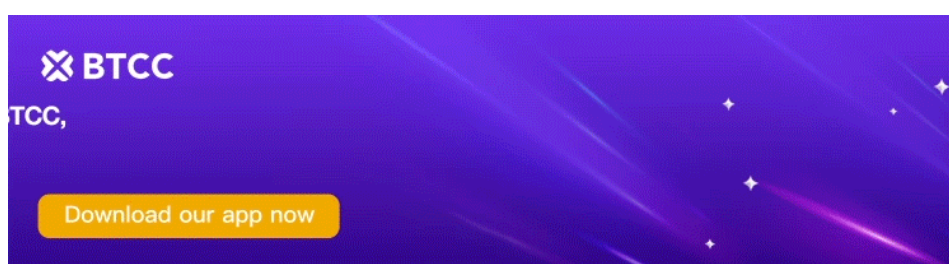

You can trade crypto futures on BTCC Now. Over 300 USDT-margined perpetual trading pairs are available for users to trade, including many popular altcoins and meme-coins.

About BTCC

BTCC is a leading cryptocurrency trading platform that is distinguished by its ability to balance the simplicity of use with advanced features. It provides a comprehensive educational program through the BTCC Academy, 24/7 customer support, and robust security to both novices and experts. BTCC is a top choice for digital asset investors due to its emphasis on user contentment, which fosters a secure and informed trading environment across a variety of cryptocurrencies.

BTCC is one of the few exchanges in the market that offers high-leverage options for investors and concentrates extensively on futures trading. Users have access to more than 300 USDT-margined perpetual trading pairs, which encompass numerous prominent altcoins and meme-coins. Additionally, the platform has recently implemented spot trading to facilitate novice users who may not be acquainted with futures trading.

- **Established Reputation:** BTCC is one of the oldest and most well-known cryptocurrency exchanges, having been operational since 2011. Its history in the market enhances its credibility and trustworthiness.
- **A Diverse Selection of Cryptocurrencies:** BTCC allows customers to access and exchange a wide range of digital assets.
- **Margin and Futures Trading:** BTCC provides margin and futures trading options, allowing customers to expand their trading holdings and potentially increase their profits.
- **Proficient Trading Instruments:** such as real-time market data, trading charts, and technical analysis indicators. These tools can help users make informed trading decisions.
- **Security Measures:** BTCC values security and uses a variety of safeguards to secure customer payments and information. This includes two-factor authentication (2FA) and cold storage of cryptocurrency assets.
